Education

B.TECH, *Computer Engg .*   present
JCD Memorial College (Sirsa)

Computer Engg. (Diploma)   2020 – 2023
Government Polytechnic Sirsa

Courses

Full-Stack-Development   present
Kodu Institute(Powered by Dhurina Ventures)

Projects

Ecomerce
- Implemented an e-commerce fully-fledged web application based on React and Vite that uses optimal performance capabilities.
- Applied Tailwind CSS to create a responsive, modern user interface.
- Integrated dynamic cart and product management with state management in React Context API.
- Implemented Firebase for user authentication, allowing login/logout securely.
- Deployed smoothly on Vercel, ensuring fast and reliable hosting.

Health-Wellness-and-Journal
- Developed a Health and Wellness Journal app to track daily health metrics such as food intake, physical activities, mood, and sleep hours.
- Designed a user-friendly interface to log and analyze health data easily.
- Provided insightful patterns and trends to help users understand their wellness over time.
- Features to allow tracking of personal goals and better health habits were implemented.

Invoice Generator
- Developed an invoice generator using React and Tailwind CSS for responsive, dynamic form fields.
- Added jsPDF to allow users to print and download invoices in PDF format.
- Ensured smooth functionality with real-time item entry, including name, description, quantity, and rate.
- Deployed the app on Vercel for smooth hosting and fast performance.Optimized for usability with intuitive design, enhancing the overall user experience.
